US Treasury bonds are among the highest credit quality and most liquid of all securities.

Diversification and defence

US Treasury bonds historically have been among the better-performing assets during US recessions and periods of global economic weakness.

Attractive income

GGOV's focus on long maturity US Treasury bonds offers the potential for attractive income, paid quarterly.

Efficient asset allocation

GGOV's focus on long maturity US Treasury bonds provides a capital-efficient way of adding duration (bonds with greater price sensitivity to changes in interest rates) to portfolios.
